Section 6: Additional information relevant to the proposed service change

There is a risk that requirement changes may be identified that results in changes to the report design, build and test plan. This is considered as low impact and probability.

No issues identified.

It is assumed that the report requirements as defined in DSC Change Proposal has been agreed by Xoserve with its Customers and this has been signed off.

As part of UAT it would be beneficial that the change originator of this CP test that the reporting requirements have been met.

Please send completed form to: <u>box.xoserve.portfoliooffice@xoserve.com</u>
