### A3: Proposer Requirements / Final (redlined) Change

Problem Statement:	The request for this Change Proposal is to ensure that there is visibility to ChMC of the changes within scope of DDP Release 1 2024/25 – this aims to provide transparency so the rationale of the priority being applied to DDP scope can be clearly understood.	
Change Description:	DNs require access to dashboards in DDP that provide visibility of meter points taking part in hydrogen trials, as well as any changes that take place to data items related to those meter points. Data items such as Calorific Value will also be made available in DDP. This release will undertake the necessary data modelling to enable the dashboards to be produced as well as dashboards to be developed for DNs. Completion of Shipper and IGT dashboard development and deployment of all dashboards will follow in Release 2.	
Proposed Release:	Release 1 2023/24: April - May 2024

Shippers and IGTs will also be able to keep aware of meter points taking part in Hydrogen trials once dashboards are implemented for those groups in a subsequent release.</p> <p><i>What, if any, are the tangible benefits of introducing this change?
